

Essentials in Occupational Safety and Health: OSH and Beyond

An innovative training tool in the new normal
to promote safe system and workplaces

Online Course

About the EOSH Package

The EOSH package for OSH and Beyond consists of a selection of modules covering OSH themes and topics to promote a general culture of Occupational Safety and Health as well as specific risk issued and include:

- ☺ Introduction to safety and health at work
- ☺ Management of prevention
- ☺ Risk assessment
- ☺ Accident Prevention and Reporting
- ☺ Work permits
- ☺ Personal Protective Equipment
- ☺ Muscle skeletal disorders
- ☺ Tools, machines and appliances
- ☺ Hazardous substances
- ☺ Trip, slip and fall
- ☺ Ergonomics
- ☺ Managing health crises and COVID-19

The delivery of OSH knowledge is crucial to both employees who can improve the employability in the workplace and employers who have the opportunity to improve employee understanding of OSH in the workplace. This would have the effect of improving the quality and increase productivity through the development of OSH Culture in the workplace.

OBJECTIVES

- ☺ This course aims to increase the employees' perception of the risk and contribute to the reduction of unsafe workplaces and system of work initiated by the employer.
- ☺ Bring to the attention of employers and employees the OSH technical solutions to create safe workplaces.

Format and interactivity

The 12 modules are offered in an engaging interactive online format, where the participants can have a dynamic learning experience, with online activities, videos and additional resources. Eye-catching infographics present the content and material with an innovative approach, while memory aids & animations make the learning process fresh and playful.

The package features a modular approach, whereby the participants are exposed to the subject matter by why of the following mediums namely the use of computers, tablets, group forums, mobile phones and two (02) webinars that would be conducted by an ILO facilitator located in the respective time zone and region. Furthermore, the internet interface from ILO e-Campus Website is always accessible even with low bandwidth connections.

The duration of the course is four (04) weeks with an approximate learning time of forty (40) hours.
